# Detcon Model 1010-N4X

## Gas Detection Control System

Compatible with Model 10 Control Modules

### Description

Detcon Model 1010-N4X control enclosure, along with Model 10 digital control modules, is designed to serve as a host control system for remote mount gas detection sensor assemblies. The single channel modular design can be configured for any combination of gases. All control modules are plug-in front panel accessible for easy maintenance and repair. A "blank plate" can be installed on any unused channel until that channel is needed at some future date. The Model 1010-N4X includes an integral power supply. A panel mount circuit breaker that also acts as a power switch is front panel accessible.
