Description

Model SPS-01W-DV1 is specifically designed to provide continuous power to a wide range of wireless field devices that operate on less than 1 watt. The self contained, preassembled 12 VDC solar power supply is ideal for use in heavy industrial applications. The solar panel's most unique feature is that it's housed in a cast aluminum enclosure suitable for installation and use in Class 1; Division 1, Groups C and D, hazardous locations. Model SPS-01W-DV1 is stackable to create higher output arrays as needed. Additional panels are wired in parallel and increase the average amp hours per day to meet the power requirements of the specific field device.

Estimated Panel Output

Applications

- Oil and Gas Drilling Rigs
- Oil and Gas Production Sites
- Wastewater Treatment Plants
- Food and Beverage Processing
- Pulp and Paper Mills
- Refining and Petrochemical

Performance

- Rated Power (Pmax) 1.5W
- Power Tolerance ± 10%
- Nominal Voltage 12V
- Limited Warranty 10 years

Electrical Characteristics²

- Maximum Power (Pmax)³ 1.5W
- Voltage at Pmax (Vmp) 12V ± 5%
- Current at Pmax (Imp) 0.075A
- Warranted Minimum Pmax 1.5W
- Short-circuit Current (Isc) 110mA
- Open-circuit Voltage (Voc) 27.5V
- Electrical Classification Class 1, Div 1; Groups C, D
